

A.N.C CO.,LTD

RIGHT DELIVERY , RIGHT TIME

ABOUT US

Founded in 1996 in SAI GON , ANC Group has never stopped growing. Currently, we have expanded throughout Vietnam with 4 offices, 3 warehouses and a professional trucking team with more than 25 head trucks and van trucks. We provide a full range of services from door-to-door in Vietnam to worldwide coverage, including the handling of project cargoes and DG. In addition to Vietnam, in 2018, we established a branch in the United States based in Buena Park, California.

- The warehouses are equipped with fire protection, forklifts and a team of full-time workers.

PROJECT CARGO

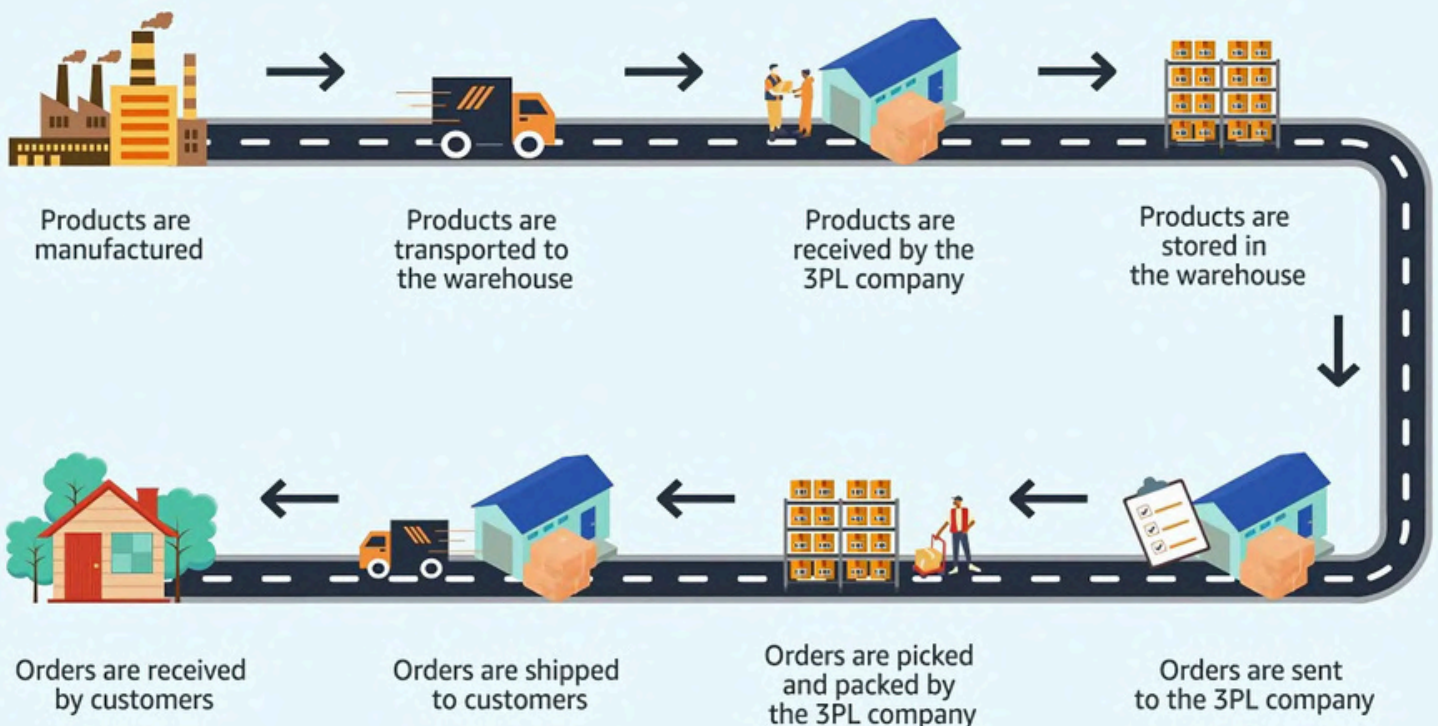

Tailor-made logistics for industrial projects is one of our businesses. The more complex requirements for industrial plants and projects, the more our expertise and capabilities come into play. Our experts bring 29 years of experience to clients to ensure a successful project, whatever challenge the project presents. From studying initial concept , designing and upgrading facility in order to overcome logistical of challenges, providing FCL and LCL freight services - partial and complete, to cargo surveying for the project, we always endeavor to fulfill all from start to finish .

3PL SERVICE

As a third party (3PL), we provide specialized supply chain optimization services to enable our customers to focus on their core competencies. We invest in the right vehicles, warehousing and expertise to handle processes including procurement, warehouse management, freight and distribution, consolidation, order fulfillment, and customs brokerage and other processes. We have an established reputation and 3PL experience in the chemical and dangerous goods industry.

3PL ORDER FULFILMENT PROCESS

CHEMICAL LSP

As a Chemical Logistics Service Provider (LSP) we assist customers not only transportation but also customs clearance, warehouse & supply chain management. Providing solutions for DG cargo, we have built our online platform for DG logistics management.

CUSTOMS

We invest in the platform to control all the conditions and import, export licenses of substances. All HS and CAS will be scanned through our platform and customers will be immediately advised what licenses and conditions they will need to import and export these chemicals.

TRANSPORT

Over the past 20 years, ANC has built a network of Global Partners who are Chemical LSPs in their country. In Vietnam, we own a fleet including container tractors & vans with full licenses to transport Dangerous Goods for all Classes, except for Classes 1 & 7

WAREHOUSE

Operating a chemical & DG warehouse is one of the biggest challenge. The EHS regulations and conditions are given top priority. ANC is currently involved in operation of 2 DG warehouses in the North & South of Vietnam. Beside normal WMS, we have a separate tool to manage DG from POL packing until the final door .

DG TRANSPORT

Safety, environmental regulations and the transportation of Dangerous Goods are big challenges for the chemicals industry including transportation. In 15 years ANC has been building the trust and now we are a trusted partner in this industry with the exception of Class 1& 7. Together with our customers, we have had major drills on emergency response to hazardous chemical spills on the road.

SUSTAINABILITY

Since 2019, ANC has built a sustainable development core including 3 main strategic axes: environmental, social and governance (ESG). Accordingly, we have implemented numerous practical activities for these goals.
